

City of McMinnville

Certification of High-Efficiency Interior Lighting

In accordance with Oregon Residential Specialty Code Section N1107.2, the building official shall be notified in writing at the final inspection that the permanently installed lighting fixtures are high-efficiency light sources.

Uploading this completed form online to Oregon ePermitting satisfies the required notification to the building official.

High-efficiency light sources are defined by code as compact fluorescent lamps T-8 or smaller diameter linear fluorescent lamps, LED lamps, fixture-integrated illumination devices, or lamps with an efficacy not less than 65 lumens per watt for each lamp or luminaires with an efficacy not less than 45 lumens per watt for each luminaire.

Project Address: _____

Permit Number: _____

By my signature below, I certify that all permanently installed lighting fixtures are high-efficiency light sources.
