Types of Zoning	Option #1 – Existing	Option #2 - Great Neighborhood Principles	Option #3 – Hybrid with High Density	Option #4 – Hybrid with High Density and Low Density
Traditional McMinnville Zoning: R1, R2, R3 and R4 Zoning. Zones are identified by minimum lot sizes, density standards and allowed housing types. Lowest density zone, R1, has the least amount of allowed housing types. High density zone has the most amount of allowed housing types. Currently no design and development standards for housing types.	X			
Catch-All Residential Zone: A zone that has a targeted minimum density and requires a developer to show how they will be achieving that with a variety of different housing types (single family detached – all sizes), cottage clusters, duplexes, triplexes, quadplexes, townhomes, apartments, etc.) and has design and development standards for each housing type. Zone could also include a targeted affordable housing component for developments.		X	X	X
High Density Residential Zone: Only multifamily allowed. Need to define what is multifamily (duplexes, triplexes, quadplexes and apartments). Design and Development Standards for each housing type.			X	X
Single Family Residential Zone: This is the traditional single family detached residential zone. Typically allows for duplexes on corner lots.				X

WHAT THIS MEANS FOR THE CITY

- A commitment to a higher density housing strategy – “Are we ready for it?”
- A paradigm shift in zoning from homogenous single-family residential zones to neighborhoods that are inclusive and diverse with a variety of housing types
- A high density residential zone strategically located – Where?
- A growth analysis that is built around McMinnville values and what is best for future residents.

PERSPECTIVE

Population has grown by over 113% and UGB has grown by 7%

McMinnville has been working on expanding its UGB for 25 Years.

Yamhill County has 458,240 Acres.

McMinnville's UGB is 7,552, less than 2% of the county in geographic area but with 31% of the population.

Yamhill County has 192,251 EFU acres. If the city expanded by 800 acres into EFU land, the city would absorb 0.4% of Yamhill County EFU land. 4/10 of 1%
