

NE ALPINE AVE 700-1100

IMPROVEMENT PROJECT

TRUCK ACCESS ON ALPINE AVENUE

CHANGES TO TRUCK MOVEMENTS ON ALPINE

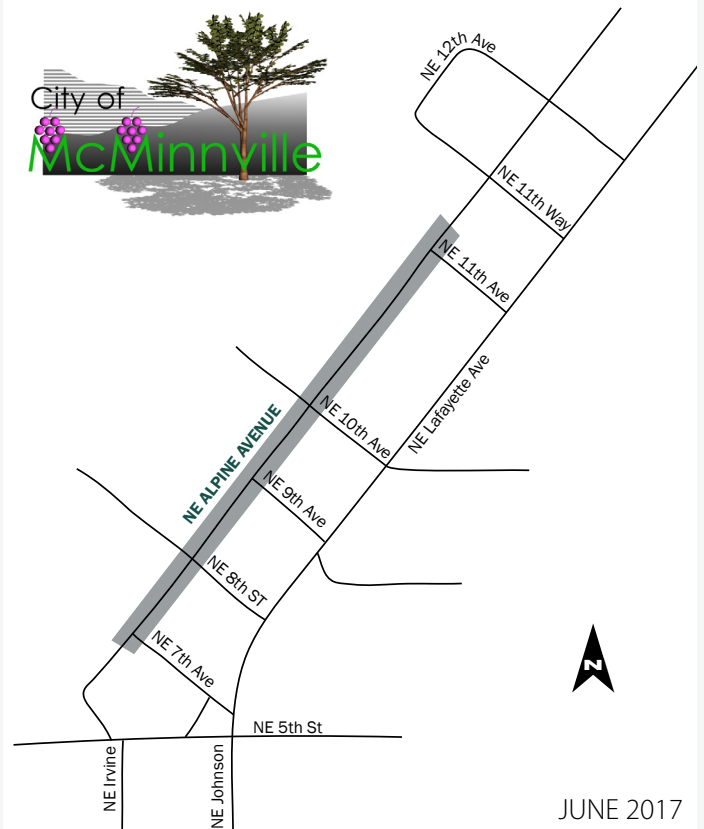

The improvements coming to NE Alpine Avenue will create a balanced environment for people and vehicles, and support transportation safety and economic vibrancy. It's important for trucks to be able to access necessary destinations without deterring from a pedestrian-friendly environment. After construction is complete, Alpine Avenue will accommodate intermediate-sized semitrailer trucks (45.5-foot-long) and smaller at all intersections. For larger interstate semitrailer trucks (73.5-foot-long), however, turning accommodations will change at four designated intersections.

WHERE CAN LARGE INTERSTATE SEMITRAILER TRUCKS TURN?

Four intersections on Alpine Avenue will change. Permitted turning movements for large interstate semitrailer trucks (73.5-foot-long) include:

- NE 7th Avenue and Alpine Avenue (southbound turning west and east).
- NE 8th Street and Alpine Avenue (southbound turning east).
- NE 10th Avenue and Alpine Avenue (westbound turning south, westbound turning north, southbound turning east and northbound turning east).
- NE 11th Avenue and Alpine Avenue (westbound turning south, southbound turning east and northbound turning east).

JUNE 2017

ABOUT THE PROJECT:

The Alpine Avenue Improvement Project is one of the five Capital Improvement Projects identified within the Transportation Bond passed by McMinnville voters in 2014.

Alpine Avenue is a central spine and primary pedestrian route through the Northeast Gateway District. The planned improvements will create a low traffic, pedestrian-friendly connection between downtown and destinations within the district.

IMPROVEMENTS:

- Street surfacing
- Pedestrian facilities
- Shared use bike facilities
- Utility upgrades
- Attractive landscaping
