Technology Use Guidelines
Children's Room

- All computers are for children age 12 and under

- Children 0 through 9 years of age must be supervised while using the Internet.

- Children 10 through 12 year of age may use the filtered Internet without supervision.

- Sign up to use the Internet or game computers at the Children's Reference Desk

- Sign up includes first name and time they will be finished using the computer

- There is a 30 minute limit for both Internet and game computers. Internet use may be extended for school projects and homework.

- Children may have only one Internet or one game session per day

- No reservations for computers will be taken by phone or in person

- Print copies are 5 cents for black and white and 50 cents for color

- You may use a disk to save your work. The Children's Reference desk sells these for 30 cents each.

- Only two people at a terminal at one time

- Children's Internet computers are filtered but may be unfiltered at a parent's request and with their supervision.
