COMMENTS:

This matter was referred to the following public agencies for comment: Oregon Department of Land Conservation and Development, McMinnville Fire Department, Police Department, Engineering Department, Building Department, Parks Department, City Manager, and City Attorney; McMinnville Water and Light; McMinnville School District No. 40; Yamhill County Public Works; Yamhill County Planning Department; Frontier Communications; Recology Western Oregon; Comcast; Northwest Natural Gas. The following comments have been received:

Engineering Department:

I have reviewed proposed G 9-17, and would note that I am generally not in support adding requirements for neighborhood meetings for land use applications. I believe that requiring neighborhood meetings is adding unnecessary time and cost to development proposals.

Further, over the past 17 or so years, it has been my observation that many of the land use applications that have had the most neighborhood concern, did hold neighborhood meetings prior to, or during, the land use review process. Those neighborhood meetings didn't seem to make a measurable difference in the amount of neighborhood concern voiced to the Planning Commission and/or City Council. Also, it is my observation that most often the concerns expressed by neighbors aren't related to the criteria that the decision bodies (Planning Director, Planning Commission, and City Council) must consider when determining to approve or deny an application.

Lastly, if neighborhood meetings are required, I don't understand why vacation home rental applications would require such a meeting. As currently codified, the criteria for approval of a vacation home rental don't include any items that could be influenced by public input (i.e. there are either enough parking spaces or there aren't; there are adequate smoke detectors or there aren't).

It seems to me that the requirement for neighborhood meetings will likely increase (not decrease) the amount of conflict at public hearings by the Planning Commission and/or City Council.

Additional Testimony

No notice was provided to property owners for this application. Five items of testimony in favor of the concept of neighborhood meetings were received by the Planning Department. All of the following testimony is on file with the Planning Department:

CONCLUSIONARY FINDINGS:

Oregon Statewide Planning Goals

The following Oregon Statewide Planning Goals are applicable to this request:

GOAL 1: TO DEVELOP A CITIZEN INVOLVEMENT PROGRAM THAT INSURES THE OPPORTUNITY FOR CITIZENS TO BE INVOLVED IN ALL PHASES OF THE PLANNING PROCESS

Finding: Goal 1 is satisfied in that the incorporation of neighborhood meetings into the land use application review process will provide for additional opportunities for citizen involvement. The process will allow for residents and community members to be made aware of land use and development projects that may be occurring in the city, and that may impact their property or their neighborhood. The process will also allow for early public engagement in land use or development projects. The requirements for the format of the neighborhood meeting will allow for residents and community members to be involved in the land use process by having an opportunity to discuss a project with an applicant or developer, ask questions of the applicant or developer, and also identify issues with any proposed land use or development project that they feel should be addressed.

McMinnville's Comprehensive Plan:

The following Goals and policies from Volume II of the McMinnville Comprehensive Plan of 1981 are applicable to this request:

GOAL X 1: TO PROVIDE OPPORTUNITIES FOR CITIZEN INVOLVEMENT IN THE LAND USE DECISION MAKING PROCESS ESTABLISHED BY THE CITY OF McMINNVILLE.

Policy 188.00: The City of McMinnville shall continue to provide opportunities for citizen involvement in all phases of the planning process. The opportunities will allow for review and comment

by community residents and will be supplemented by the availability of information on planning requests and the provision of feedback mechanisms to evaluate decisions and keep citizens informed.

Finding: Goal X 1 and Policy 188.00 are satisfied in that the incorporation of neighborhood meetings into the land use application review process will provide for additional opportunities for citizen involvement. The process will allow for residents and community members to be made aware of land use and development projects that may be occurring in the city, and that may impact their property or their neighborhood. The process will also allow for early public engagement in land use or development projects. The requirements for the format of the neighborhood meeting will allow for residents and community members to be involved in the land use process by having an opportunity to discuss a project with an applicant or developer, ask questions of the applicant or developer, and also identify issues with any proposed land use or development project that they feel should be addressed.

Goal X 1 and Policy 188.00 are also satisfied in that McMinnville continues to provide opportunities for the public to review and obtain copies of the application materials and completed staff report prior to the McMinnville Planning Commission and/or McMinnville City Council review of the request and recommendation at an advertised public hearing. All members of the public have access to provide testimony and ask questions during the public review and hearing process.

McMinnville's City Code:

The following Sections of the McMinnville Zoning Ordinance (Ord. No. 3380) are applicable to the request:

Chapter 17.03 – General Provisions:

17.03.020 Purpose. The purpose of the ordinance codified in Chapters 17.03 (General Provisions) through 17.74 (Review Criteria) of this title is to encourage appropriate and orderly physical development in the city through standards designed to protect residential, commercial, industrial, and civic areas from the intrusions of incompatible uses; to provide opportunities for establishments to concentrate for efficient operation in mutually beneficial relationship to each other and to shared services; to provide adequate open space, desired levels of population densities, workable relationships between land uses and the transportation system, adequate community facilities; and to provide assurance of opportunities for effective utilization of the land resources; and to promote in other ways public health, safety, convenience, and general welfare.

Finding: Section 17.03.020 is satisfied by the legislative amendment in that the incorporation of neighborhood meetings into the land use application review process will provide for additional opportunities for citizen involvement in the land use and development process. The neighborhood meeting process will promote the general welfare of the city by providing residents and community members an opportunity to provide comments and potentially influence land use and development projects in such a way that they become more compatible with the surrounding neighborhood.
