I. APPLICATION SUMMARY:

Subject Property & Request

The proposal is an application for a Tentative Partition (MP 6-20) to partition an approximately 7.22 acre parcel of land into three (3) parcels approximately 6.43, 0.31, and 0.48 acres in size to allow for future residential development of the parcels. The subject site is located at 835 SW Hilary Street, and is identified as Tax Lot 1600, Section 29AB, T. 4 S., R. 4 W., W.M.

The subject property is located west of SW Baker Street (Highway 99W) and south of SW Fellows Street at the termination of SW Hilary Street. Cozine Creek and its associated flood plain and steep terrain bisect the site, running generally north to southwest. The subject property has portions that are zoned R-2 (Single-Family Residential), R-3 (Two-Family Residential), and F-P (Flood Plain). Portions of the site zoned R-2 (Single-Family Residential) include the northwest corner of the site, and the eastern portion of the site north of the Hilary Street terminus. The southeast corner of the site south of the Hilary Street terminus is zoned R-3 (Two-Family Residential). The remainder of the site is zoned F-P (Flood Plain). A single-family dwelling is existing on the land zoned R-2 (Single-Family Residential) north of Hilary Street. The portion of the site east of Cozine Creek zoned R-2 and R-3 is accessed from Hilary Street. The portion of the site west of Coine Creek zoned R-2 is accessed via private easement from Fellows Street.

Cozine Creek and its floodplain continue north and southwest of the site. Adjacent properties to the west of the subject site include the Tall Oaks subdivision that is zoned R-2 (Single-Family Residential). Properties to the north and east of the site are also zoned R-2. South of Hilary Street, adjacent property is zoned R-4 (Multiple-Family Residential), developed with multi-family apartment buildings. A 33-foot wide undeveloped right-of-way borders the western property line of the subject site, between the it and the Tall Oaks subdivision. See Vicinity Map (Figure 1), Zoning Map (Figure 2), and Applicant's Proposed Partition Plan (Figure 3).

Summary of Criteria & Issues

The application is subject to the standards and procedures established in Chapter 17.53 (Land Division Standards) of the Zoning Ordinance, which are intended to "[...] provide uniform procedures and standards for the subdivision and partitioning of land, and adjustment of property lines; to assure adequate width and arrangement of streets; to coordinate proposed development with plans for utilities and other public facilities; to avoid undue congestion of population; to assure adequate sanitation and water supply; to provide for the protection, conservation, and proper use of land; to secure safety from fire, flood, slides, pollution, drainage or other dangers; to provide adequate light and air, recreation, education, and adequate transportation; to promote energy conservation; to protect in other ways the public health, safety, and welfare; and to promote the goals and policies of the McMinnville Comprehensive Plan." The goals and policies in Volume II of the Comprehensive Plan are also independent approval criteria for all land use decisions.

As required by the Land Division Standards, lots created by partition are required to conform to the zoning requirements of the area. The R-2 (Single-Family Residential) zone has a minimum lot size of 7,000 square feet, and the R-3 (Two-Family Residential) zone has a minimum lot size of 6,000 square feet. Proposed lots are required to abut streets or access easements to provide access. Proposed Parcels 1 and 2 are provided access through easements and rights-of-way. Extension of an access drive through an unimproved right-of-way which Proposed Parcel 2 abuts would likely require the removal of public trees from the unimproved right-of-way. Utilities are required to be provided to each proposed parcel, and the proposed partition indicates utilities are, or can be, provided to each parcel.

FINDING: SATISFIED WITH CONDITION OF APPROVAL #15. A condition of approval is included on the proposed land division to require a waiver of rights of remonstrance for future street improvements on Hilary Street prior to the approval of the final partition plat.

CONDITION FOR FINDING: Applicant shall enter into a Revocable License and Right to use Public Right of Way, prior to the approval of the final partition plat, for the extension of the access easement driveway across the unimproved public right-of-way to proposed Parcel 1.

GOAL VII 1: TO PROVIDE NECESSARY PUBLIC AND PRIVATE FACILITIES AND UTILITIES AT LEVELS COMMENSURATE WITH URBAN DEVELOPMENT, EXTENDED IN A PHASED MANNER, AND PLANNED AND PROVIDED IN ADVANCE OF OR CONCURRENT WITH DEVELOPMENT, IN ORDER TO PROMOTE THE ORDERLY CONVERSION OF URBANIZABLE AND FUTURE URBANIZABLE LANDS TO URBAN LANDS WITHIN THE McMINNVILLE URBAN GROWTH BOUNDARY.

Policy 153.00 The City of McMinnville shall continue coordination between the planning and fire departments in evaluating major land use decisions.

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED. The McMinnville Fire Department was provided the opportunity to review and comment on the application.

GOAL IX 2: TO ESTABLISH A LAND USE PLANNING FRAMEWORK FOR APPLICATION OF THE GOALS, POLICIES, AND PROPOSALS OF THE MCMINNVILLE COMPREHENSIVE PLAN

GREAT NEIGHBORHOOD PRINCIPLES

- Policy 187.10 The City of McMinnville shall establish Great Neighborhood Principles to guide the land use patterns, design, and development of the places that McMinnville citizens live, work, and play. The Great Neighborhood Principles will ensure that all developed places include characteristics and elements that create a livable, egalitarian, healthy, social, inclusive, safe, and vibrant neighborhood with enduring value, whether that place is a completely new development or a redevelopment or infill project within an existing built area.
- Policy 187.20 The Great Neighborhood Principles shall encompass a wide range of characteristics and elements, but those characteristics and elements will not function independently. The Great Neighborhood Principles shall be applied together as an integrated and assembled approach to neighborhood design and development to create a livable, egalitarian, healthy, social, inclusive, safe, and vibrant neighborhood, and to create a neighborhood that supports today's technology and infrastructure, and can accommodate future technology and infrastructure.
- Policy 187.30 The Great Neighborhood Principles shall be applied in all areas of the city to ensure equitable access to a livable, egalitarian, healthy, social, inclusive, safe, and vibrant neighborhood for all McMinnville citizens.
- Policy 187.40 The Great Neighborhood Principles shall guide long range planning efforts including, but not limited to, master plans, small area plans, and annexation requests. The Great

Neighborhood Principles shall also guide applicable current land use and development applications.

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED. The application is a current land-use application for a Minor Partition of the subject site, and Great Neighborhood Principles policies are applicable.

Policy 187.50 The McMinnville Great Neighborhood Principles are provided below. Each Great Neighborhood Principle is identified by number below (numbers 1 - 13), and is followed by more specific direction on how to achieve each individual principle.

- 1. Natural Feature Preservation. Great Neighborhoods are sensitive to the natural conditions and features of the land.
 - a. Neighborhoods shall be designed to preserve significant natural features including, but not limited to, watercourses, sensitive lands, steep slopes, wetlands, wooded areas, and landmark trees.

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED WITH CONDITION OF APPROVAL #2. The application is a current land-use application, and Great Neighborhood Principles policies are applicable. Staff notes that the City currently has no adopted inventories of significant natural features, including riparian corridors, wooded areas, or landmark trees at this time. The Cozine Creek and floodplain corridor that bisects the subject site is heavily wooded. The wooded area extends beyond the floodplain onto the buildable portion of the site west of Cozine Creek, and further into the unimproved right-of-way that borders the western property line of the site. Many large, mature trees are present on proposed Parcels 1 and 2 and the adjacent undeveloped right-of-way west of Parcel 2, providing value to the Cozine Creek floodplain and riparian corridor, the subject site, and the surrounding neighborhood. Tree removal appears to be necessary to accommodate future residential development and associated public improvements and utility provision. Therefore, a condition of approval is included to require prior review and authorization from the Landscape Review Committee to remove any tree larger than nine (9) inches DBH (Diameter at Breast Height) to limit the unnecessary removal of trees within proximity to a sensitive natural area in the floodplain and riparian corridor.

CONDITION FOR FINDING: That existing trees with trunks partially or wholly within Parcels 1, 2, and 3 of the partition and the undeveloped public right-of-way west of Parcel 2 are subject to the provisions of Chapter 17.58 – Trees of the McMinnville Zoning Ordinance, and shall not be removed by the applicant without prior review and written approval by the Planning Director, pursuant to Chapter 17.58. Trees greater than nine inches DBH will not be approved for removal unless a certified arborist determines that they are diseased, dying, or dead, or the developer demonstrates that practical development of an approved lot, or required public improvements (i.e. streets, sidewalks, and public utilities), will adversely impact the survival of such tree or trees. In addition, all trees that are not to be removed shall be protected during the construction of all public improvements and residential development in the approved partition. A plan for such tree protection approved by the Planning Director shall be submitted with construction and/or building permit applications prior to release of construction or building permits within the subject site.

11. Housing for Diverse Incomes and Generations. Great Neighborhoods provide housing opportunities for people and families with a wide range of incomes, and for people and families in all stages of life.

a. A range of housing forms and types shall be provided and integrated into neighborhoods to provide for housing choice at different income levels and for different generations.

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED. The proposed partition would create buildable lots within an existing neighborhood that can be used for infill development. This type of development can help provide a variety of housing choice at different income levels for different generations that would be integrated into an established neighborhood.

GOAL X 1: TO PROVIDE OPPORTUNITIES FOR CITIZEN INVOLVEMENT IN THE LAND USE DECISION MAKING PROCESS ESTABLISHED BY THE CITY OF McMINNVILLE.

Policy 188.00 The City of McMinnville shall continue to provide opportunities for citizen involvement in all phases of the planning process. The opportunities will allow for review and comment by community residents and will be supplemented by the availability of information on planning requests and the provision of feedback mechanisms to evaluate decisions and keep citizens informed.

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED. The process for a Tentative Partition provides an opportunity for citizen involvement through the public notice and comment period. Throughout the process, there are opportunities for the public to review and obtain copies of the application materials prior to the McMinnville Planning Director's review of the request. All members of the public have access to provide testimony and ask questions during the public review process.

McMinnville Municipal Code

The following Sections of the McMinnville Municipal Code provide criteria applicable to the request:

Chapter 17.15 R-2 Single Family Residential Zone

17.15.030 Lot Size. In an R-2 zone, the lot size shall not be less than seven thousand square feet except as provided in Section 17.15.010(C) of this ordinance.

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED. Proposed parcels #2 and #3 each contain land zoned R-2 (Single Family Residential). The tentative partition plan indicates the area of land in Parcel #2 above the Flood Plain which is zoned R-2 is 7,125 square feet which exceeds the minimum lot size for the zone. The tentative partition plan indicates the area of land in Parcel #3 above the Flood Plain which is zoned R-2 is 50,240 square feet which exceeds the minimum lot size for the zone.

<u>17.15.040 Yard requirements.</u> In an R-2 zone, each lot shall have yards of the following size unless otherwise provided for in Section 17.54.050:

- A. A front yard shall not be less than twenty feet;
- B. A rear yard shall not be less than twenty feet;
- C. A side yard shall not be less than seven and one-half feet, except an exterior side yard on the street side of a corner lot shall be not less than twenty feet.

APPLICANT'S RESPONSE: None.

Attachments : Attachment 1 – Application and Attachments Attachment 2 – Testimony Received **FINDING: SATISFIED.** An existing single-family dwelling is present on proposed Parcel #3. The minimum distance from the dwelling to a property line is approximately 52 feet. Because this minimum distance exceeds the maximum yard requirement in the R-2 zone (20 feet), the single-family dwelling on proposed Parcel #3 will continue to meet the yard requirements of the zone.

Chapter 17.18 R-3 Two-Family Residential Zone

<u>17.15.030 Lot Size.</u> In an R-3 zone, the lot size shall not be less than six thousand square feet except as provided in Section 17.18.010(C) of this ordinance.

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED. Proposed Parcel #1 contains land zoned R-3 (Two-Family Residential). The tentative partition plan indicates the area of land in Parcel #1 above the Flood Plain which is zoned R-3 is 19,176 square feet which exceeds the minimum lot size for the zone.

Land Division Standards - Partition

17.53.060 Submission of Tentative Partition Plan. An application to partition land shall be submitted in accordance with the application submittal procedures as stated in Sections 17.72.020 through 17.72.070 and shall be reviewed and approved under the following procedure:

17.53.060(A): There shall be submitted to the Planning Department, a completed tentative partition application, applicable fees, and 15 (fifteen) copies of a tentative partition plan drawn to scale with sufficient information to show the following:

- 1. The date, north point, scale, a copy of recorded deed, and any conveyed rights to define the location and boundaries of the parcels to be partitioned;
- 2. Name, address and phone number of the recorded owner(s), authorized agents or representatives, engineer or surveyor, and any assumed business names filed or to be filed by the applicant with the Corporation Commission;
- 3. Approximate size of the parcel under a single ownership or, if more than one ownership is involved, the total contiguous acreage of all owners of land directly involved in the partitioning;
- 4. For land adjacent to and within the parcel to be partitioned, show locations, names, and existing widths of all streets and easements of way; locations, width, and purpose of all other existing easements; and location and size of sewer and water lines and drainage ways;
- 5. Outline and location of existing buildings to remain in place;
- 6. Parcel layout showing size and relationship to existing or proposed streets and utility easements;
- 7. Location and dimension of any existing or planned curb-side planting strip which may border the subject site. (Amended 12/9/97 by Ordinance 4654B.)
- 8. A Title Report or Partition Guarantee prepared within 60 (sixty) days of the application date.
- 9. Contour lines related to City datum and having minimum intervals of two (2) feet.
- 10. Location and direction of water courses, and the location of areas within the 100-year floodplain as indicated on the most recent Flood Insurance Rate Maps as prepared by the Federal Emergency Management Agency.
- 11. Location of any natural features such as rock outcroppings, designated wetlands, wooded areas, and natural hazards.
- 12. Source, method and preliminary plans for domestic and other water supplies, sewage disposal, storm water disposal and other drainage facility plans, and all other utilities.
- 13. Such additional information as required by the Planning Director.

Attachment 1 – Application and Attachments

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED. The applicant submitted an application and tentative partition plan on November 23, 2020, and the application was deemed incomplete pending a variance application or other verification of legal access via private easement to the portion of the site west of Cozine Creek. Following verification of evidence documenting the provision of legal access via private easement to the portion of the site west of Cozine Creek, the application was deemed complete on April 20, 2021. Staff notes that the City of McMinnville currently does not have adopted inventories of natural features such as wetlands, tree groves, or natural hazards.

17.53.060(B). Upon receiving a complete application for a partition, notification and review shall be provided as stated in Section 17.72.110. The Director's decision shall be based upon a finding that the tentative plan substantially conforms to the requirements of this chapter.

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED. The application for a Tentative Partition of the subject site was deemed complete on April 20, 2021. Notification was mailed to property owners within 100 feet of the subject site on May 5, 2021. A request for public hearing was received by the Planning Department within the 14-day comment period, requiring a public hearing following the procedure outlined in Section 17.72.120 of the Zoning Ordinance. Findings have been provided for applicable Comprehensive Plan policies and goals, and criteria and standards of the McMinnville Municipal Code and other applicable ordinances.

17.53.060(C). The Planning Director may require such dedication of land and easements and may specify such conditions or modifications in the plan as are deemed necessary to carry out the McMinnville Comprehensive Plan. In no event, however, shall the Planning Director require greater dedications or conditions than could be required if the entire parcel were subdivided.

- 1. If the parcel of land to be partitioned, being large in size, shall be divided into more than three parcels within any one calendar year, full compliance with all requirements for a subdivision plat may be required if the Planning Director should determine, in his judgment, that the entire parcel is in the process of being subdivided.
- 2. Where a parcel is proposed to be divided into units of one acre or more, the Planning Director shall require an arrangement of parcels and streets such as to permit future partitions or subdivision in conformity to the street requirements and other requirements contained in this ordinance. Refer to Section 17.53.080 for future development plan requirements.
- 3. For notice of decision, effective date of decision and the appeal process, refer to Chapter 17.72 (Applications and Review Process).
- 4. The effective date of the Planning Director's decision shall be 15 (fifteen) calendar days following the date the notice of decision is mailed unless an appeal is filed.

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED. Dedication of additional land and/or easements are not required to carry out the McMinnville Comprehensive Plan. The subject site has not been partitioned into more than three (3) parcels within any one (1) calendar year, nor is the subject site proposed to be divided into units of one acre or more.

17.53.060(D). Approval of a Tentative Partition Plat shall be valid for a one-year period from the effective date of approval. Upon written request, the Director may approve a one-year extension of the decision. Additional extensions shall require the approval of the Planning Commission.

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED WITH CONDITION OF APPROVAL #19. A condition of approval has been included to confirm that the approval of the tentative partition plat shall be valid for a one-year period from the effective date of decision.

CONDITION FOR FINDING: That approval of this tentative plat will expire 12 (twelve) months after the effective date of decision. If the final plat has not been submitted prior to expiration of the tentative plat, or a written request for an extension of this approval has not been submitted and approved within that same period, the applicant must resubmit a tentative plat for further consideration and comply with regulations and conditions applicable at that time.

Land Division Standards – Approval of Streets and Ways

17.53.100 Creation of Streets.

- C. An easement providing access to property and which is created to allow the partitioning of land for the purpose of lease, transfer of ownership, or building development, whether immediate or future, shall be in the form of a street in a subdivision, except that a private easement to be established by deed without full compliance with these regulations may be approved by the Planning Director under the following conditions:
 - If it is the only reasonable method by which the rear portion of a lot being unusually deep or having an unusual configuration that is large enough to warrant partitioning into two more new parcels, i.e., a total of not more than three (3) parcels including the original may then exist, that may be provided with access and said access shall be not less than 15 (fifteen) feet in width and shall have a hard surfaced drive of 10 (ten) feet width minimum;
 - 2. The Planning Director shall require the applicant to provide for the improvement and maintenance of said access way, and to file an easement for said access way which includes the right to passage and the installation of utilities. Such requirements shall be submitted to and approved by the City Attorney.
 - 3. Access easements shall be the preferred form of providing access to the rear lots created by partition if the alternative is the creation of a flag lot.

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED WITH CONDITIONS OF APPROVAL #14, 15. Proposed Parcel 1 is to be accessed via private easement as indicated on the tentative partition plan. The proposed private access easement to Parcel 1 is 25 feet wide.

Proposed Parcel 2 is provided legal access via existing private easement, as indicated on approved Partition Plat 2001-03, and through an undeveloped public right-of-way. Although proposed Parcel 2 is the fourth lot accessed via the private easement, the City has acknowledged and approved this deviation from 17.53.100(C)(1) through prior land-use decision MP 7-00 and Ordinance No. 4741, and by approving Partition Plat 2001-03. The existing access easement is 22 feet wide, and the existing driveway leading to Parcel 2 is approximately 12 to 13 feet wide, both exceeding the minimum width. The applicant is party to an existing private easement agreement noted on Partition Plat 2001-03 that provides the terms for construction and maintenance of the shared access driveway.

CONDITIONS FOR FINDING: Applicant shall enter into a Revocable License and Right to use Public Right of Way, prior to the approval of the final partition plat, for the extension of the access easement driveway across the unimproved public right-of-way to proposed Parcel 1.

Applicant shall enter into a Revocable License and Right to use Public Right of Way, prior to the approval of the final partition plat, for the extension of the access easement driveway across the unimproved public right-of-way to proposed Parcel 2.

17.53.101 Streets.

- General. The location, width, and grade of streets shall be considered in their relation to Α. existing and planned streets, to topographical conditions, to public convenience and safety, and to the proposed use of the land to be served by the streets. Where location is not shown in a comprehensive plan, the arrangement of streets in a subdivision shall:
 - 1. Provide for the continuation or appropriate projection of existing principal streets in surrounding areas; or
 - 2. Conform to a plan for the neighborhood approved or adopted by the Planning Commission to meet a particular situation where topographical or other conditions make continuance or conformance to existing streets impractical; or
 - 3. Maximize potential for unobstructed solar access to all lots or parcels. Streets providing direct access to abutting lots shall be laid out to run in a generally eastwest direction to the maximum extent feasible, within the limitations of existing topography, the configuration of the site, predesigned future street locations, existing street patterns of adjacent development, and the preservation of significant natural features. The east-west orientation of streets shall be integrated into the design.
- B. Rights-of-way and street widths. The width of rights-of-way and streets shall be adequate to fulfill city specifications as provided in Section 17.53.151 of this chapter. Unless otherwise approved, the width of rights-of-way and streets shall be as shown in the following table:

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED WITH CONDITION OF APPROVAL #16. A Condition of approval is included on the proposed land division to require the applicant to file waiver of right of remonstrance against future street improvements of Hilary Street in the right-of-way adjacent to the subject site.

CONDITION FOR FINDING: Applicant shall consent and agree to a waiver of rights of remonstrance for future street improvements on Hilary Street prior to the approval of the final partition plat.

17.53.105(A). <u>Size and shape</u>. Lot size, width, shape, and orientation shall be appropriate for the location of the subdivision and for the type of use contemplated. All lots in a subdivision shall be buildable.

1. Lot size shall conform to the zoning requirement of the area. Depth and width of properties reserved or laid out for commercial and industrial purposes shall be adequate to provide for the off-street parking and service facilities required by the type of use contemplated. The depth of lot shall not ordinarily exceed two times the average width.

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED. The lots resulting from the proposed partition are of a size, width, shape, and orientation appropriate for the location of the subdivision and for the use contemplated (residential). All proposed lot sizes conform to the zoning requirements of the area. See findings for Sections 17.15.030 and 17.18.030 above. The depth of each of the proposed parcels does not exceed two times the width.

17.53.105(B). <u>Access</u>. Each lot shall abut upon a street other than an alley for a width of at least 25 (twenty-five) feet or shall abut an access easement which in turn abuts a street for at least 15 (fifteen) feet if approved and created under the provisions of 17.53.100(C). Direct access onto a major collector or arterial street designated on the McMinnville Comprehensive Plan Map shall be avoided for all lots subdivided for single-family, common wall, or duplex residential use, unless no other access point is practical.

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED. Proposed Parcel 1 would abut a proposed access easement that is 25 feet wide. The 25-foot wide access easement abuts the entire approximately 60 foot width of the terminus of the Hilary Street right-of-way. Proposed Parcel 2 would abut a 33-foot wide undeveloped right-of-way west of the subject site for a width of 135 feet. A 22-foot wide access easement abuts both the 33-foot wide unimproved right-of-way and Fellows Street right-of-way. Fellows Street is classified as a Minor Collector and direct access is allowed. Proposed Parcel 3, the remainder of the parent parcel, will continue to abut the Hilary Street right-of-way for a 207.28-foot width.

17.53.105(C). <u>Through Lots</u>. Through lots shall be avoided except where they are essential to provide separation of residential development from major traffic arteries or adjacent nonresidential activities, or to overcome specific disadvantages of topography and orientation. A planting screen easement at least 10 (ten) feet wide, and across which there shall be no right of access, may be required along the line of lots abutting such a traffic artery or other incompatible use.

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED. The proposed partition does not create any through lots, therefore this criterion is met.

17.53.105(D). <u>Lot side lines</u>. The side lines of lots, as far as practicable, shall run at right angles to the street upon which the lots face.

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED. The proposed property lines that would divide the three proposed parcels run at approximate right angles to the street rights-of-way, or the access easement leading to the streets, upon which the parcels face. Therefore, this criterion is met.

17.53.060(E). <u>Flag lots</u>. The creation of flag lots shall be discouraged and allowed only when it is the only reasonable method of providing access to the rear of a lot which is large enough to warrant partitioning or subdividing. [...]

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED. The proposed partition does not create any flag lots, therefore this criterion is met.

Chapter 17.58 Trees

17.58.020 Applicability. The provisions of this ordinance shall apply to:

- A. Individual significant or historic trees as defined in this ordinance.
- B. All trees with trunks located completely or partially within any public area or right-of-way;
- C. All trees with trunks located completely within any private property which directly affect public infrastructure including but not limited to sewers, water mains, sidewalks, streets, public property, or clear vision distances at street intersections.
- D. All trees on developable land and subject to or undergoing development review such as site plan review, tentative subdivision review, or partition review; [....]

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED. The subject site is undergoing partition review to create new parcels with developable land. Access to proposed Parcel 2 will be through a portion of undeveloped public right-of-way adjacent to Parcel 2. The subject site is heavily wooded outside of the portion of proposed Parcel 3 that is developed with an existing single-family dwelling. Tree removal will likely be necessary to accommodate future residential development and associated public improvements on proposed Parcels 1, 2, and within the undeveloped public right-of-way west of Parcel 2. Therefore, (B) and (D) are met, and the provisions of the Trees Chapter of the Zoning Ordinance shall apply to trees within the subject site and the undeveloped public right-of-way west of proposed Parcel 2.

17.58.040 Tree Removal/Replacement

A. The removal or major pruning of a tree, if applicable under Section 17.58.020, shall require City approval, unless specifically designated as exempt by this ordinance. Persons wishing to remove or prune such trees shall file an application for a permit with the McMinnville Planning Department. [...] Requests for tree removal or pruning of trees outside of the Downtown Tree Zone shall be forwarded to the McMinnville Landscape Review Committee [....] The Landscape Review Committee may approve, approve with conditions, or deny the request based on the criteria stated in Section 17.58.050. [...]

APPLICANT'S RESPONSE: None.

FINDING: SATISFIED WITH CONDITION OF APPROVAL #2. Any tree removal on the subject site or within the adjacent undeveloped right-of way is applicable under 17.58.020 and would require City approval. A condition of approval is included to require the applicant to submit an application for proposed tree removal for approval pursuant to Chapter 17.58.

CONDITION FOR FINDING: That existing trees with trunks partially or wholly within Parcels 1, 2, and 3 of the partition and the undeveloped public right-of-way west of Parcel 2 are subject to the provisions of Chapter 17.58 – Trees of the McMinnville Zoning Ordinance, and shall not be removed by the applicant without prior review and written approval by the Planning Director, pursuant to Chapter 17.58. Trees greater than nine inches DBH will not be approved for removal unless a certified arborist determines that they are diseased, dying, or dead, or the developer demonstrates that practical development of an approved lot, or required public improvements (i.e. streets, sidewalks, and public utilities), will adversely impact the survival of such tree or trees. In addition, all trees that are not to be removed shall be protected during the construction of all public improvements and residential development in the approved partition. A plan for such tree protection approved by the Planning Director shall be submitted with construction and/or building permit applications prior to release of construction or building permits within the subject site.
