

**YOUNG PEOPLE OF MCMINNVILLE**

**STAND RESOLUTELY AGAINST THE**

**BAKER CREEK WETLANDS DEVELOPMENT**

**The Bureaucracy in control of your city's urban planning is prioritizing zone approval for an out of town Upper Middle Class demographic over its own Citizens.**

**Rather than utilizing an abundance of appropriate lots for Affordable Housing, accessible to the Folk who've lived in McMinnville their whole lives, they continue to create Suburban Developments more attractive for those well off people who would like to move to our town, than available to those whose roots are planted here through their lifetime in our community.**

**They even have the audacity to push one of these developments into the cherished Baker Creek Wetlands, destroying the organic environment that makes this land so special.**

**We call on those most affected, the Youth who, due to a 99% Housing Occupancy rate, and exorbitant rent costs, are continuously forced out of their home town and into metropolitan hubs, to stand up and preserve your home community.**
