Mr. Fleckenstein

I am writing about mine and my neighbors concerns about the slated traffic plan slated for the Oak Ridge Meadows subdivision.

Having the construction traffic and eventually the new resident traffic use Pinot Noir Drive, Merlot and Oak Ridge for access to Baker Creek is absurd. We are talking narrow streets, children playing and us old farts on our daily walks being impacted by this traffic proposal by Premire Homes.

A simple solution would be to extend Shadden to the north of Baker Creek Road for construction traffic on a all weather gravel road.

This gravel road should / could be used for the new residents to use.

Please don't turn our neighbor hood into a nightmare. Can you imagine living on a quit narrow city street and then adding the traffic amount everyone is talking about?

Sincerely

Rodney Pedersen
